

Freestanding Digital Tyre Inflator

FEP Profile

BEP Profile

FEP / BEP

The BEP and FEP models are specially designed for the service and gas station industry, enhancing site image and providing safe, accurate and reliable tyre inflation for customers.

With the choice of either a round - BEP or square - FEP body profile, the sleek architectural design integrates with any corporate image.

Our extensive range of high-grade powder coat colours completes the ultimate low maintenance solution for service and gas station tyre inflation systems.
