

## 89PTU

### Pressure Test Unit

Introducing Airtec's 89PTU, a portable testing unit to check all tyre inflation equipment up to 145psi / 10bar.

89PTU

#### Product Features

- Lightweight and portable
- Durable aluminium carry case
- Pressure relief valve prevents over-inflation
- Automatic power off function extends battery life
- Eliminates reading error compared to analog gauge
- Powered by rechargeable Lithium-Polymer battery

#### Technical Specifications

- |                       |                                |
|-----------------------|--------------------------------|
| Construction          | : Aluminium Carrying Case      |
| Dimension             | : 280L x 280H x 280D mm        |
| Measurement Range     | : 0 - 100% Nitrogen            |
| Operating temperature | : 0°C to +60°C [32°F to 140°F] |
| Accuracy              | : +/- 0.5% FS                  |
